

In Norbrook we pride ourselves in being one of the top companies in Northern Ireland and one of the top veterinary pharmaceutical companies globally. We develop & manufacture veterinary medicines, supplying products to 120 countries globally. With a strong portfolio of existing products and significant investment in R&D to launch new products annually, we have opportunities for individuals to join us and develop their career in a global company.

Our business strategy is supported by our Values – Customer Value, One Team, Results Driven, Excellence, Innovation, and Quality – and we support our employees to live the behaviours that creates our culture. Our on-going success is based on the expertise, knowledge and innovation of our employees. If you are interested in joining our team here at Norbrook and supporting our vision, then apply for this role.

### Job Overview

The successful candidates will work as part of the Quality team and will be required to perform chemical testing of raw materials and APIs. The successful candidate will be required to organise, supervise and assist others in the analysis of raw materials using relevant quality specification, ensuring their fitness for use by production. The successful candidate will also be required to plan and schedule analysis for raw material and API release, stability and the vendor accreditation program. The successful candidate will monitor and drive the performance of analysts within their team.

### Essential Criteria:

- Applicants must be educated to degree level in a Chemistry related discipline or 5 years' experience in an analytical laboratory setting which includes a supervisory role.
- Applicants must have a minimum of 2 years GMP laboratory experience.
- Excellent oral and written communication skills
- Experience in carrying out analysis especially HPLC and GC analysis.
- Ability to work to strict deadlines in a dynamic environment
- A proven track record in Health & Safety
- Flexibility to work shift patterns

### Desirable Criteria:

- Experience with Microsoft software packages word and excel.
