

In Norbrook we pride ourselves in being one of the top 10 companies in Northern Ireland and in the top 15 veterinary pharmaceutical companies globally. We develop & manufacture veterinary medicines, supplying products to 120 countries globally. With a strong portfolio of existing products and significant investment in R&D to launch new products annually, we have opportunities for individuals to join us and develop their career in a global company.

Our business strategy is supported by our Values – Customer Value, One Team, Results Driven, Excellence, Innovation, and Quality – and we support our employees to live the behaviours that creates our culture. Our on-going success is based on the expertise, knowledge and innovation of our employees. If you are interested in joining our team here at Norbrook and supporting our vision, then apply for this role.

Job Overview

To provide support to the pharmaceutical development team in relation to the transfer of new products to the commercial facility and assist in the lifecycle management of existing products when required. It is expected that the post holder will be experienced in the field of process validation and be aware of all current guidelines within this field. The post holder must ensure that all work is carried out in accordance with the Company's Quality Manual, Standard Operating Procedures and H&S requirements.

Essential Criteria:

- A science degree (detail degree modules on application form).
- Previous experience working in a cGMP environment.
- Knowledge of VICH guidelines.
- Practical working knowledge of process validation.
- Experience in the compilation of protocols, reports and interpreting raw data
- Excellent knowledge of Microsoft Packages

Desirable Criteria:

- A chemistry or chemical engineering degree
- At least two years' experience in a cGMP environment.
- Previous relevant experience in process validation work in a pharmaceutical company.
- Previous practical experience of batch scale up from development to routine manufacture.
