

In Norbrook we pride ourselves in being one of the top companies in Northern Ireland and one of the top veterinary pharmaceutical companies globally. We develop & manufacture veterinary medicines, supplying products to 120 countries globally. With a strong portfolio of existing products and significant investment in R&D to launch new products annually, we have opportunities for individuals to join us and develop their career in a global company.

Our business strategy is supported by our Values – Customer Value, One Team, Results Driven, Excellence, Innovation, and Quality – and we support our employees to live the behaviours that creates our culture. Our on-going success is based on the expertise, knowledge and innovation of our employees. If you are interested in joining our team here at Norbrook and supporting our vision, then apply for this role.

Job Overview

Applications are invited for the role of Cleanroom Microbiologist as part of the Environmental Microbiology Department.

The successful candidates will be mainly based in our manufacturing areas and will be responsible for gathering samples from these areas for quality assurance purposes.

This is an important role which requires dedicated individuals who can work largely unsupervised using their own initiative, who are capable of employing good time-management and organisational skills.

Key tasks of the role include:

- Sampling of pharmaceutical cleanrooms
- Recording of data onto a database system

The successful candidate will be required to work a shift pattern which, depending on Production requirements will involve either 8 hour or 12 hour rotations which will include nightshifts and weekends.

No prior experience is required as full training will be given for this role.

Other tasks carried out on a non-routine basis include but are not limited to recommissioning and reclassification testing, DOP testing of HEPA filters, identification of isolates recovered from pharmaceutical cleanrooms.

Essential Criteria:

- Grade C or above in both English and Maths at GCSE level (or equivalent).
- The ability to work a shift pattern, this will involve either 8 or 12 hour rotations which will include nightshifts and weekends

- Excellent oral and written communication skills as demonstrated on application form, pre-interview written test and at interview.
- Capable of standing for extended periods of time.
- Excellent organisational and time management skills.

Desirable Criteria:

- A full UK Driving Licence with access to a car (for occasional movement between work areas)
- Experience of shift work.
- Experience of working in a manufacturing environment.
- Experience of following formal Standard Operating Procedures.

Duration: Full time permanent

Location: Newry, Co. Down

Remuneration: Salary Attractive

Benefits: Free Life Assurance, Company Pension Scheme, 30 days annual leave, Wedding Leave, Employee well-being initiatives, Healthcare plan, Company Sick Pay, Employee Assistance Programme, On-site free parking, Canteen Facilities, Employee Perks scheme, Discounted Car Insurance, Annual Employee raffle, employee recognition scheme, career development opportunities and much more...

Contact: The Human Resources Department

Norbrook Laboratories Limited employs a workforce with members of all sections of the community and is committed to appointing people purely on the basis of merit. In accordance with our equal opportunities policy we would particularly like to welcome applicants from the Protestant Community.
